

Just an FYI. Alex Cannon and his team verified that the 10k+ supposed dead people voting in GA is not accurate

I didn't hear that claim. It is not accurate. I think I found 22 if I remember correctly. Two of them died just days before the general

It was alleged in Rudy's hearing today. Your number is much closer to what we can prove. I think it's 12

My son found 12 obituaries and 6 other possibles depending on the Voter roll acuracy

That sounds more like it. Maybe he can help Rudy find the other 10k ??
